3.97 / 4.0

High School Education

Polytechnic Lyceum of NTUU "KPI"

📅 2015 - 2021 📍 Kyiv, Ukraine

UA Final Assessment

196 / 200

PROJEKTS AND PRACTICE

Web Pie Shop

🔗 https://github.com/konik56/Pie_Shop

Online Shop build utilising ASP.NET CORE framework. This web app is built using MVC, Razor Pages, Bootstrap, Entity Framework, MySQL and user sessions. Added unit testing with help of xUnit package

YouTube Clone

🔗 https://github.com/konik56/YouTube_Clone

React.js Web app which copies the interface of YouTube and leverages Rapid API integration to fetch realtime videos data and display it to a user depending on a URL.

Portfolio WebSite - <https://portfolio-nextjs-illia-konik.vercel.app/>

🔗 <https://github.com/konik56/myportfolio>

Web portfolio where I use React.js, also the Resend email service for form emails handling and Vercel for hosting services.

LeetCode

I have successfully solved over 100 problems of different complexity using various techniques and approaches. Applying dynamic programming and different datastructures and algorithms

WORK EXPERIENCE

Factory worker

Prima Pack

📅 08/2022 - 01/2023 📍 Tornhill

Prima Pack is a corporation involved in paper advertisement development and manufacturing. I was assembling a paper ads and managing temporary workers team during busy hours.
